"Mildred K." says: "Please advise what I can use for a good hair tonic. My hair and scalp are in a very had condition and nothing seems to help."

Answer: The best hair tonic on the market is sold in 4 oz. jars and is called plain yellow minyel. Any up-to-date druggist will have it. This is superior to anything known for the treatment of the diseases of the hair and scalp. Two or three applications have been known to overcome it, while it makes the hair soft, fluffy and makes it keep its natural color.

"Jane" writes: "My nerves are in a dreadful condition, my appetite is very poor and I am extremely thin. My face is so thin that it makes me very unhappy. I should like you to tell me a true remedy."

Answer: You will not only be relieved, but you will be permanently helped by using the following: Ask your druggist for a 2½ oz. bottle of essence of mentho-laxene. This can be taken pure or can be made into a full pint of cough syrup. Full directions are given on the bottle for making. This is very easily made at home, and is perfectly safe, as it does not contain any harmful ingredients as do most of the so-called cough cures.

Widow and Son Open Fire, and Seven of Twelve Unwelcome Visitors Fall at First Volley.

[Special to The Times-Dispatch.]

Bland Courthouse, Va., June 19.—When twelve "white cappers" went to the farm home of Mrs. Dolla Z. Nester, a comely widow, who lives several miles from here in the foothlils of the East Hiver Mountains, for the purpose of punishing her for her alleged receiving of attentions from a married man, Mrs. Nester and her son, Tom, opened fire on the viriliantes. Seven of the twelve fell at the first volley from the widow's battery, and the five others beat a hasty and unorderly retreat. All of the wounded were painfully hurt, and one is said to ave been mortally wounded. He was rushed to the hossifial at Bluefield, W. Va., thirty miles away. The others fied to their mountain homes, and are striving to hide their identity, according to the meagor reports which were received here by relayed telephone messages to night. All efforts to get a complete account of the trouble were unavailing. Bland is a mountain county bordering West Virginia. It is not traversed by railroads, and is sparsely populated.

Watermelons and canta-loupes, dry weather crops, are stand-ing the dry weather fairly well, and other things being equal, will produce well in case there is a rain within the next ten days.

Why "Randolph"?

RANDOLPH takes the place of MONROE June 15 as a central office name. Madison remains unchanged.

Madison and Monroe, as used side by side in the past, have given rise to a great deal of confusion. Recent tests show that calls have been made for one when the other was intended as often as several hundred times a day, with consequent annoyance to our subscribers. Most of these cases seem to have been due to similarity in the appearance of the names in the telephone directory.

With Randolph and Madison for the two central office names in Richmond, we believe this confusion will disappear.

The name of Randolph was chosen after careful consideration of a number of possible names, and we trust will meet with the approval of the Richmond public.

The new telephone directory containing the necessary changes will be distributed about June 15. Please consult this directory when making calls, and in all instances give the central office designation Randelph for all numbers formerly designated as Monroe.
